

VGrip

18mm thick, hard wearing rubber mat with V-shaped cleats.
Perfect for slopes and high pressure areas.

VGrip is a 18mm thick, hard wearing rubber matting with V-shaped cleats designed to provide anti-slip support for hooves. The V-shaped cleat catches hooves before they start sliding, stopping them from falling and giving animals confidence on their feet. The unique shape and placement of the cleats aid water run-off, preventing pooling, and making it easy to clean.

Applications

Entry and Exit Races, Slopes, Feed Troughs, Laneways, Cattle Crates, Crushes

Properties

Made from high MPA rubber with an anti-stretch fabric inlay. Fully vulcanized sealed rubber that won't hold moisture or bacteria. Ground spikes and joining system available for multiple rolls.

30-year life expectancy

(based on typical dairy yard usage)

Slip Resistant

Recycled Rubber

Certified Installation

Specifications

Features

- Easy to clean surface pattern
- V-shaped cleat catches hooves before they slide
- Heavy duty rubber, made to last

Strengths

- Reduces slipping and falls
- Less hoof wear, less lameness
- Excellent one-piece coverage, can be joined with joining plates
- Protects lane-way erosion

Dimensions

Cut length up to 30m | Width: 2m, 2.4m | 18mm (10mm base with 8mm cleat)
